„Employment Miracles“? Facts and Factors

An international comparison
of countries with a successful
employment policy

pragma

NRW.

CONTENTS

1	Introduction	4
2	Of the necessity to learn from the "European neighbours". The political and scientific background	15
2.1	Comparison of countries. A modern phenomenon? Fundamental ideas and problems	15
2.2	Possibilities, problems, and limitations of "learning" from successful policies	26
2.3	Employment miracle or statistical artefacts?	40
3	Political concepts for the management of employment problems. Are there alternatives to the "Model Germany"?	47
4	Countries in comparison: Netherlands	59
4.1	Preliminary remarks	59
4.2	Labour market indicators in the Netherlands. The development of unemployment and employment	63

4.3	The Dutch consensus model as a basis for the employment growth	88
4.3.1	Consensus orientation as a cultural feature	89
4.3.2	The institutional back-up of the Dutch consensus model	96
4.3.3	The Dutch policy of "social innovation"	104
4.4	Summary, transferability to Germany and outlook	112
5	Countries in comparison: Denmark	128
5.1	Preliminary remarks	129
5.2	Denmark's labour market indicators. Development of unemployment and employment	133
5.3	The reform of the Danish labour market policy and the use of (new) labour market instruments	165
5.4	Employment oriented wage policy and consensus system of collective bargaining	192
5.5	Summary, transferability to Germany and outlook	200
6	Lessons and consequences from the comparison of countries. Résumé and conclusions	212
6.1	From the German model to the Anglo-American model? Or "Social Model Europe"? Lessons from the "employment miracle countries"	219
6.1.1	<i>Digression: The Anglo-American way out of the employment crisis: USA and Great Britain</i>	222
6.1.2	Inflexible labour markets – cause of the employment calamity? Strategies for the flexibilisation of the labour market	230
6.1.3	Low-wage concepts: Wonder drug against unemployment?	237
6.2	Conclusion	249
	Literature	256
